

JMG Fast-Track (JMG-FT) process for publication

The *JMG Fast-Track (JMG-FT) review process for publication* gives the opportunity of a paper review process quicker than that of an ordinary submission, as the selected paper is immediately inserted in the review process without undergoing the first *desk-rejection assessment* phase. This formula is applicable to a **maximum of 3 papers presented** at the IFERA RDW “Advancing Gender Diversity Research in Family Business: A Journey across Disciplines” that will be held at the University of Brescia, April, 20th-21st, 2020.

The formula does not guarantee the publication of the submitted paper, which must positively pass the peer-review process.

A number of 3 papers presented at the IFERA RDW “Advancing Gender Diversity Research in Family Business: A Journey across Disciplines” will be eligible for submission to *Journal of Management and Governance* following a fast-track review process for publication

<https://www.springer.com/business+&+management/journal/10997>

The Scientific Committee of the IFERA RDW will select the 3 papers and announce them during the final plenary session.

Authors that wish to be considered for this competition, should **declare the interest in submitting their paper to JMG-FT at the submission phase of the paper to the conference.**
